

## **Promoting British Values through the Geography Curriculum at Childwall CE Primary School**

The Geography curriculum at Childwall Church of England Primary School aims to provide children with a fascination of the world they live in and encourage children to be good, active citizens of Britain. The studies of their local areas encourage children to be proud of their culture and heritage and gain an understanding and mutual respect of the multi-cultural society in which they live.

The Geography curriculum enables children to learn more about the countries of the world, including their own. It is through these studies that children learn about democracy and the impact the decisions made by those in power have on specific places. This includes numbers of hospitals in cities, parks and green spaces and also the impact that a rising population has on our world.

Individual liberty is taught and encouraged by teaching children about the environment and how they can make a difference in protecting our world. Through completing fieldwork activities and river studies, children can see the effect that humans are having on our planet and can be empowered to make a change - even if they are standing away from the crowd.
